

Ramiah Viknesh

★ Javascript Developer ★ React and React Native Developer ★ AWS
mobile hub for React Native

Ready to work hard to get to places. Would love to work in professional environments where best standards are followed and great things are being built. As a developer want to hone my skills and develop good software with good quality in the presence of great people along with me.

WORK EXPERIENCE

Front End Engineer

BrainValley

07/2017 - Present

Chennai

Achievements/Tasks

- Developed Mobile apps for both Android and IOS using the React Native Framework along with AWS AppSync and React Apollo. Also developed many web apps using modern front end frameworks.

UI Developer

Full Creative

02/2017 - 04/2017

Chennai

Achievements/Tasks

- Built many Beautiful UI for their Web Apps using industry best standards.

RECENT PROJECTS

Recap Mobile application — React Native

- Developed a student app from school portal where they can review their subjects, chapters, in audio format and they can record their own audio on the specific chapters implemented in React Native with AWS tools like Cognito user for login and DynamoDB for NoSQL DB for listing all the subjects, chapters and AWS mobile Hub belt on top of the application with React, React Native, GraphQL.

Raus Mobile application — React Native

- React native application for E-learning. Allows students to learn through videos and also allows them to revise by the test pack feature and provides detailed report on their learning methodology. This app uses AWS tools like Cognito for user login and DynamoDB for storing data and GraphQL.
